Foreign News,

From Bristol papers to the third of September, received by the fast sailing ship Fame, arrived yesterday.

LONDON, August 28.

A Hamburg Mail arrived this day, brings the following articles of intelligence. Six ships of the line have sailed from Toulon to proceed against Algiers. The envoy who is appointed to go with them is Citizen Hullin, who before the revolution was a private in the French guards, and was particularly active in storming the Bastile. It is said, that the letter of our government, addressed to the Dey, is conceived in very strong terms; and that, entirely to root out that nest of pirates, we will probably take possession of Algiers.

It is confirmed by the Jamacia papers, that a difference has taken place between the Governor of that Island and the House of Assembly, on the subject of the demand by Government for the Island, to undertake the payment of 5000 troops for its defence. The House of Assembly have pointedly resisted the principle, as contrary to their rights, and they claim protection, as their due, equally with every other part of the British empire. They likewise decline finding supplies for the maintenance of a corps of black artificers. thought necessary by the Governor for the execution of certain work resolved upon.

The heat in the neighborhood of Frankfort, at the commencement of the present month, was so intense, that the leaves of the vine, and other trees, fell in the same manner as at the end of Autumn.

On the 20th, the First Consul went to the Fraincaise, to see Andromaque. Mr Fox who has been for some days in Paris, was present, and occupied a box facing that of the First Consul.

The rapid increase of Cotton Manufactories in the North of England has lately been almost incredible. Lancashire is, and perhaps will continue to be the grand centre; but one manufactory of this article has, within the last four or five years, been gaining much ground in Cheshire, Staffordshire, and Westmoreland; and so considerable has its progress been in Yorkshire, that the labouring poor in the western parts of this Riding, are at present principally employed in it. In the neighbourhood of Halifax, Haddersfield, Bradford, and even Dewsbury, several large manufactories have lately been erected, and we are informed the enterprising proprietors of these works have the most flattering prospect of success.

We are happy to find that the refactory ship wrights have submitted, are again employed, and work together with the men from the King's dock yards. The caulkers likewise have applied for permission to work, so that those unpleasant disputes are likely to be soon settled.

It is stated in a French newspaper, that a man, at Nioft, devoured in the presence of several persons, an entire full grown sheep, together with its wool!!!

Corn Market, August 30.

The weather continuing fine for the harvest, our market again to day was but thinly supplied with corn from Essex and Kent, the principal part fresh up was from Suffolk. Wheat of first quality went off at Friday's terms, which are from 1s, to 2s. per quarter higher than this day week.

Current price of Grain per quarter—Wheat, 45s. a 55s. a 64s; Fine do. 65s. a 66s. Rye, 30s. a 33s. Fine Flour, 50s. a 53s. per sack; Second do. 45s. a 50s. per do.

Country Markets—Salisbury, August 24, Wheat 54s. a 66s. Devizes, Aug. 26, Wheat 64s. to 70s. Warminster, Aug, 28, Wheat, 66s. to 72s.

August 31.

This day arrived Paris Papers to the 19th inst. The French Funds continue to decline. On the 27th the Five per cents. were at 50. 80.

An article from Genoa, speaks of a Treaty about to be entered into between that State, and the French Republic, by which the former is to renounce the Islands of Corsica and Capraja, and to receive an exchange of Oneille and its Dependencies.

The approaching departure of General Andreosi from Paris to London, is announced to take place within fifteen days from the 21st inst.

A Senatus Consulta is, it is stated, about to be issued, for the purpose of regulating the order of distributing of possessions in St. Domingo, in such a manner as to conciliate the rights and interests of the Proprietors and the Negroes.

The Hamburg Mail which arrived on Saturday, mentions, on the authority of letters from Vienna, that the Imperial Court continues to refuse its assent to the scheme of indemnities which has been so "disinterestedly" arranged by France, Russia, and Prussia.

An article from Augsbourg, of the 19th inst. states that a body of Bavarian troops, on their march to take possession of that part of Passau granted as an indemnity to the Elector Palatine, were prevented from passing by a corps of Austrians, stationed for that purpose by the Cabinet of Vienna, on the extreme frontier of the Inn Viertel. The Declaration of the First Consul and the Emperor Alexander, will, no doubt, remove all opposition; though it appears but reasonable, that the propesed plan of Indemnities should not be carried into effect until sanctioned by the decision of the Imperial Diet.

Last night a Dutch Mail arrived, and a second this morning. Accounts from the Hague state, that a French army is to be assembled on the Rhine, for the ostensible purpose of Military parade when the Chief Consul shall visit Belgium, but more probable for the more important object of influencing and accelerating the deliberations of the Diet of Ratisbon.

It is positively stated in a private letter from Lisbon, that the abrupt departure of Gen. Lasnes was occasioned by some very extraordinary attention manifested to Madame Lasnes by an illustrious personage belonging to that Court.

A company of merchants has lately been formed at Vienna, for the purpose of sending the wines of Hungary to London. The capital at the first subscription amounted to 500,000 florins.

The harvest in Belgium is just finished, and is the richest ever remembered in that country.

Yesterday the East India Company's March Sale, 1802, finished, when the China raw silk rose 7 per cent. and the Bengal raw silk about 20 per cent.

Last Tuesday the weekly payment into the Excise office amounted to the enormous sum of 225,000l. being a quarter of a million of money.

We are happy to announce the arrival of the Walpole, Duke of Buccleugh, and Preston, homeward bound East Indiamen, in the Downs. The Purser of the Walpole landed at Dover yesterday morning, with the dispatches for the East India Company.

The extra duty in Russia on tar has been reduced from 96 cop. per ton to 13; making the whole export duties no more than 25 cop. per ton. At Archangel, &c. the price of that article has in consequence advanced to 290 cop. per ton.

The stock on hand, both of last year and present summer, is very large, so that a reduction is expected, the more especially as the demand from England is greatly reduced

From the Gazette of the United States.

TOM PAINE,

Invited to this country by his Right Worthy and affectionate Friend,

T. JEFFERSON.

No. VI.

From the documents adduced in our last it is very evident, that even Mr. Jefferson's friends did not pretend that he was originally in favor of the adoption of our present constitution, and all that was attempted, by such of them as differed from him upon this important question, was to keep his opinions as much as possible out of sight, and to prevent them from having an undue influence upon others. Indeed, Mr. Jefferson himself very carefully washes his hands of all the guilt of imposing upon us this "form of the British government in its corrupt parts." In his letter to Mazzie he very pointedly disclaims all participation in fastening upon us these *Lilliputian ties*, which he informs us must be broken. When speaking of the formation of the constitution, and of every part of the administration of the government under General Washington, he mentions both as the work of an Anglo-monarchico-aristocratic party, and declares, "THEIR avowed object is to impose on US the *substance* as THEY have already given US the *form* of the British government." He then enumerates who THEY are, namely "The Executive Power, the Judiciary Power, all the officers of Government, all who are seeking offices, all timid men who prefer the calm of despotism to the tempestuous sea of Liberty, the British merchants, and the Americans who trade on British capitals, the speculators, persons interested in the Bank and Public Funds (establishments invented to assimilate us to the British model in its corrupt parts)."

These are THEY who have given us this *copy, not quite so base as the original, of the form of the British government.*—Mr. Jefferson proceeds: "THEY would wrest from us that liberty which WE have obtained by so much labor and peril;* but WE shall prevent it.—It is sufficient that WE shall guard ourselves, and that WE break the Lilliputian ties by which THEY have bound us in the first slumbers which succeded our labours."

Such is the language by which Mr. Jefferson manifests his concurrence with Paine in his hostility to the administration of our government under Washington, and such the language which he is pleased to apply to those *Lilliputian ties*, which form the bond of our union. The manner in which he says these ties are to be disposed of will account, in part, for his solicitude to bring Paine to this country, at the expence of the nation, and for his sincere prayers that he may live long to continue his useful labours.

It cannot be denied, that when these ties were once fixed, and come to be looked upon by the people as the glory and stability of our times, Mr. Jefferson found it convenient to be mightily delighted with them. Then it was that in his public harangues he discovered that "the union of these states is the first of blessings and the preservation of that constitution which secures it, the first of duties."† So women of a certain character are ever in a hurry, before company, to assure you of their inviolable chastity. It would be difficult to point out the occasion upon which Washington spoke, in this language, of *the union of these states*, and of *the preservation of that constitution which secures it.* The reason is plain. He had no occasion for professions of this kind; for he had given no cause for suspecting the contrary. He possessed that *mens conscia recti* which informed him, that to profess his belief that the *union of these states* is a blessing, and that the *preservation of the constitution* is a *duty* in those who hold the magistracy, would be like professing his belief that the sun affords light, or, that to steal is criminal. He would expect to hear it asked, who but fools or knaves could ever think of doubting it?

These professions, insincere as Mr. Jefferson's conduct and confidential correspondencies have proved them to be, were doubtless politic on his part. His object was to break these *Lilliputian ties;* and he well knew that the readiest way to accomplish that, would be to get the knot first into his own hands. It was important that he should be made President. This could not be unless he disguised his sentiments upon the constitution, and kept out of sight those designs which he had formed against the *ties* which connect these states.

This letter to Mazzei is not the only document by which the insincerity and cunning of Mr. Jefferson's professions may be tested. Occurrences of a more recent date prove that his honesty, *merely*, has yielded to the circumstances of the times, but that his opinion of the constitution and his designs against the present system of our government remain unchanged. What are the sentiments expressed in Mr. Jefferson's Prospect before Us, which he hired Mr. Callender to compile and to father? The following are some few of the expressions worthy of the correspondent of Mazzei and Paine.

"The federal constitution was crammed down the gullet of America."—"The longer we examine, the harder we shall find it to prove what America has gained by this government." "Every Virginian who values his freedom should prepare himself to meet the worst that may happen. He should perfect himself in the use of the musket with as much diligence as the devotee learns his catechism."

* Mr. Jefferson here no doubt alludes to the labour and peril which he so manfully underwent while governor of Virginia, when pursued by Tarleton. They are thus described by Mr. Leven Powell of Virginia:

"When Tarleton, with a few light horse, pursued the assembly to Charlottesville, Mr. Jefferson discovered such a want of firmness, as shewed he was not fit to fill the first executive office, for instead of using his talents, in directing the necessary operations of defence, he quitted his government by resigning his office; this too at a time that tried men's souls, at a time when the affairs of America stood in doubtful suspense and required the exertions of all."

† See his inaugural speech of March 4, 1797 when inducted into the office of Vice-President,

It is unneceſſary to multiply extracts from the Proſpect. The purport of that work, and the agency of Mr. Jefferſon in the publication of it, are freſh in the recollection of our readers. Thoſe who wiſh to look further for Mr. Jefferſon's ſentiments upon this ſubject may ſatisfy themſelves by an examination of the National Gazette, the Aurora, and other publications patronized by Mr. Jefferſon and his ſect.

"You may have noticed in the democratic papers ſome boaſting reſpecting our late election. This day the General Aſſembly convened, and on the choice of ſpeaker, Mr. Kirby, the democratic candidate had 36 out of 150 votes. At the laſt election they boaſted of having 60 democrats; if they ſpoke the truth *then*, they have loſt greatly. FROM AUX-CAYES.

By the arrival of captain Ruſſel at Philadelphia, we learn, that at the time of his ſailing from Aux Cayes, (18th Sept.) the utmoſt confuſion prevailed in the Southern Department, and the inhabitants were all under arms, in conſequence of a general revolt among the negroes, cauſed by a late decree iſſued by the general in chief, declaring all the blacks, not free previous to the revolution, to be ſlaves. Several attempts have been made to burn the town and adjacent plantations, and a number of whites have been maſſacred by the brigands; their progreſs has, however, been ſomewhat retarded by the ſpirited conduct of the inhabitants, and the few remaining French troops, about 50 in number (about 1000 of which lately arrived, have fallen victims to the fever). About 200 of the brigands have been executed, and more are daily brought in.—St. Louis, a ſmall town in this neighborhood, lately in poſſeſſion of the blacks, has been retaken by a company of dragoons, under the command of the black general La Plume, and the ringleaders executed. It was reported, that General Le Clerc, with 2000 troops under his command, were on their march to this place from the Cape, which report was, however, not generally credited. The French veſſels of war had arrived on the morning captain R. ſailed which very probably would have a ſenſible effect in reſtoring tranquility; buſineſs was wholly at a ſtand and markets extremely dull. Accounts from Jacquemel ſtate, that a general maſſacre there of the whites had taken place, after a pillage of the town enſued—they have, however, been in ſome meaſure quelled by the arrival of the French veſſels of war."

The following articles are copied from the Bermuda Gazette, a file of which, to the 2d inſt. is received at the office of the Mercantile Advertiſer.

BERMUDA, September 11.

We have the moſt undoubted information from St. Domingo, within theſe few days, which ſtate, that the moſt dreadful battles are fought there almoſt every day between the whites and blacks; that the blacks are but too ſucceſsful, owing very much to the ſickneſs which prevails there; that Le Clerc's army is half deſtroyed, and moſt of the remainder ſo debilitated that they are unable to act offenſively any where; and that it was generally ſuppoſed that without a very large army, the iſland muſt be evacuated. Coffee and ſugar were cheap on the coaſt, and a pair of piſtols or a muſket would fetch two hundred weight of either from the blacks who came out in row boats to every veſſel paſſing the coaſt.

We are ſorry to ſay, that a very great ſickneſs prevailed at Trinadad lately, which proved very fatal to the whites. (but not ſo to the blacks) particularly ſtrangers to the climate. Several thouſand blacks have already arrived there, but the place at preſent is rather dull, owing to moſt of the ſhipping returning home.—Proviſions were cheap.

A number of American veſſels have been lately wrecked on the Caicos Banks, the crews of ſeveral of which muſt inevitably have periſhed, had not the wreckers ſaved them.

October 2.

Several Engliſh Weſt-India Iſlands have ſhut their ports againſt the Americans, owing to their having ſuch a number of their veſſels and ſeamen unemployed.—There are alſo here a great number of veſſels unemployed, as well as ſeamen; and ſome meaſures muſt be taken to put a ſtop to the preſent trade between theſe Iſlands and America, or ſome new regulations take place, otherwiſe every dollar will vaniſh.

The Whale fiſhery has been ſo productive this year that a greater number of ſhips than ever was known are expected to be fitted out the next ſeaſon, both for the South-Sea and Greenland, from England.

The number of the inhabitants in Greenland have increaſed amazingly within theſe few years, owing, in a great meaſure, to the attention paid to them by government, in giving them ſuch neceſſaries as they are in need of, as well as temporary habitations. They are become very induſtrious, ſhooting deer, bears, &c. and killing whales.

If the ſame bounty to the South Sea whale fiſhermen, is held out here now as was the caſe before the war, there can be no doubt but that new adventurers would ſoon be found. Encouragement ſhould alſo be given to the fiſhery here, as it would keep an aſtoniſhing ſum in theſe Iſlands. The above deſerves ſerious conſideration, and we truſt will be attended to, for without ſome means is ſoon deviſed to employ our ſeamen, every dollar will be drained from us.

Dr. HAMILTON's ELIXIR,

A ſovereign remedy for Colds, Obſtinate Coughs, Aſthmas, Catarrhs, Sore Throats, and Approaching Conſumptions.

To parents who may have children afflicted with the HOOPING COUGH.

This diſcovery is of the firſt magnitude, as it is an immediate relief, checks the progreſs, and in a ſhort time entirely removes the moſt cruel diſorder to which children are liable—the Elixir is ſo perfectly agreeable and the doſe ſo ſmall, that no difficulty ariſes in taking it.

—

From LUTHER MARTIN, Eſq. Attorney-General of the State of Maryland.

Gentlemen,

I comply with your requeſt in ſtating my opinion of Hamilton's Elixir. It has been uſed in my family for two or three years paſt, with uniform ſucceſs, whenever colds, coughs, or ſimilar complaints have rendered medicine neceſſary. I have myſelf found it an excellent and agreeable remedy for a very painful and troubleſome affection of the breaſt, accompanied with ſoreneſs and with obſtructed and difficult breathing

On theſe accounts I do not heſitate to recommend Hamilton's Elixir, as a valuable medicine, and deſerving public attention.

LUTHER MARTIN.

Mr. Abijah Henly, Bridge-Street, Baltimore, was cured by one bottle of Hamilton's elixir of a very complicated diſorder, occaſioned by a ſevere cold caught ſeveral months ago. He breathed with the greateſt difficulty, and was often thrown into weakening ſweats when he attempted to walk any diſtance, and his voice would frequently fail in ſuch a degree that he could only attempt to whiſper, he has been upwards of ſix weeks without a return of his complaints, and deſires to give this public teſtimony in favour of this invaluable medicine.

—

Dr. Hamilton's GRAND RESTORATIVE,

Is recommended as an invaluable medicine, for the ſpeedy relief and permanent cure of the various complaints which reſult from diſſipated pleaſures—juvenile indiſcretions—reſidence in climates unfavourable to the conſtitution—the immoderate uſe of tea, frequent intoxication, or any other deſtructive intemperance—the unſkilful or exceſſive uſe of mercury—the diſeaſes peculiar to females, at a certain period of life—bad lyings in, &c. &c.

And is proved by long and extenſive experience to be abſolutely unparalleled in the cure of

Nervous diſorders,	Violent cramps in the ſtomach and back,
Conſumptions,	Indigeſtion,
Lowneſs of ſpirits,	Melancholy,
Loſs of appetite,	Gout in the ſtomach,
Impurity of the blood,	Pains in the limbs,
Hyſterical affections,	Relaxations,
Inward weakneſſes,	Involuntary emiſſions,
Seminal weakneſſes,	Obſtinate gleets,
Fluor albus, (or whites)	Impotency, &c. &c.
Barrenneſs,	

In caſes of extremity, where the long prevalence and obſtinacy of diſeaſe has brought on a general impoveriſhment of the ſyſtem, exceſſive debility of the whole frame, and a waſting of the fleſh, which no nouriſhment or cordial could rehair a perſeverance in the uſe of this medicine has performed the moſt aſtoniſhing cures.

—

HAMILTON's ESSENCE and EXTRACT of MUSTARD,

A ſafe and effectual remedy for gout, rheumatiſm, palſey, ſprains, bruiſes, pains in the face and neck, &c. And has performed more cures in the above complaints than all the other medicines ever before made public.

From Dr. Weatherburn,
Wyth county, Virginia.

Gentlemen,

I purchaſed at your ſhop the preparations you call Hamilton's Eſſence, or Extract of Muſtard, which I believe has perfectly removed a chronic rheumatiſm (of that kind named ſciatica, or of the hip joint) under which I had laboured for a long time, and which had baffled every article in the Materia Medica, and every mode of treatment received into practice for the cure of this obſtinate diſeaſe, If you think this letter uſeful you are at liberty to make it public.

Yours, &c.

P. WEATHERBURN.

John Hoover, rope-maker, South Second-Street, between Mary and Chriſtian-Streets, Philadelphia, voluntarily maketh oath as follows, namely, that his wife, Mary Hoover, was ſo ſeverely afflicted with a violent rheumatiſm, very dangerouſly ſituated, the conſequence of a ſevere cold after lying in, as to be confined to her bed for ſeveral weeks, and was at length reduced to the melancholy apprehenſion of remaining a cripple for life, notwithſtanding the moſt reſpectable medical advice was followed, and every probable remedy attempted: when ſeeing ſeveral caſes of cures performed by Hamilton's Eſſence and Extract of Muſtard, they were procured from Mr. Birch, No. 17, South Second-Street. The firſt application enabled her to walk acroſs the room, and the uſe of one bottle reſtored her to her uſual ſtate of health and ſtrength. JOHN HOOVER

HAMILTON's
WOR DESTROYING LOZENGES.

Which have within four years paſt cured upwards of one hundred and twenty thouſand perſons of both ſexes, of every age, and in every ſituation, of various dangerous complaints ariſing from worms, and form obſtructions or foulneſs in the ſtomach and bowels.

This medicine bears no analogy whatever of ſimilar title, ſo commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being ſuited to every age and conſtitution; contains nothing but what is perfectly innocent, and is ſo mild in its operation that it cannot injure the moſt delicate pregnant lady, or the tendereſt infant of a week old, ſhould no worms exiſt in the body; but will, without pain or griping, cleanſe the ſtomach and bowels of whatever is foul or offenſive, and thereby prevent the production of worms and many fatal diſorders, They are particularly efficacious in carrying off all groſs humours and eruptions; feveriſh and bilious complaints, and are the ſafeſt and mildeſt purgative that can be uſed on any occaſion.

Deſcription of Worms, and the ſymptoms by which they are known.

Worms which infeſt the human body, are chiefly of four kinds, viz. the Teres or large round worm, the Aſcarides, or ſmall maw worm, the Cucurbitina, or ſhort, flat, white worm, and laſtly, the Tænia, or tape worm, ſo called from its reſemblance to tape; this is often many yards long, and is full of joints—It is moſt hurtful, and moſt difficult to cure.

Among the ſymptoms attending worms, are diſagreeable breath, eſpecially in the morning—Bad and corrupted gums—Itching in the noſe and about the ſeat—Convulſions and epileptic fits, and ſometimes privation of ſpeech—Starting and grinding of the teeth in ſleep—Irregular appetite, ſometimes loathing food, and ſometimes voracious—Purging, with ſlimy and fœtid ſtools—Vomiting—Large and hard belly—Pains and ſickneſs at the ſtomach—Pains in the head and thighs, with lowneſs of ſprits—Slow fever, with ſmall and irregular pulſe—A dry cough—Exceſſive thirſt—Sometimes pale and unhealthy countenance, and ſometimes the face bloated and flushed.

Perſons afflicted with any of the above ſymptoms, ſhould have immediate recourſe to HAMILTON's WORM DESTROYING LOZENGES, which have been conſtantly attended with ſucceſs in all complaints ſimilar to thoſe above deſcribed.

A doſe of this medicine given occaſionally during the warm ſeaſon, will effectually prevent the vomiting and purging of children, a dreadful diſorder which annually deſtroys thouſands of the infant part of our cities. It is likewiſe the mildeſt and moſt certain remedy known and has reſtored to health and ſtrength a great number when in an advanced ſtage of this fatal complaint. Particular and plain inſtructions are given for every part of the neceſſary treatment in ſuch caſes.

Children generally take this medicine with eagerneſs; having a pleaſing appearance, and an agreeable taſte,

CASES OF CURES.

(Selected from thouſands) the authenticity of which any perſon may aſcertain, either by letter or perſonal application.

TAPE WORM.

Mr. SAMUEL FULLER, Inn-keeper, on the Harford road, ten miles from Baltimore, began about 20 months ago to be grievouſly afflicted with a tape worm, which increaſed faſt in ſize and ſtrength, ſo as to excite the moſt horrid ſenſations by its writhing motions and intolerable pains, reſembling the gnawing and tearing of his bowels, which deprived him of his neceſſary ſleep, and cauſed ſuch dreadful apprehenſions as cannot be conceived but by one in a ſimilar ſituation—his appetite waſted rapidly, and with that his ſtrength, ſo that he was unable to attend to any buſineſs—when he heard of ſome excellent cures performed by Hamiltin's worm lozenges, he took a large doſe, which brought away about FOUR YARDS of the worm (now in the poſſeſſion of Lee & Co.)—but a renewal of his pains ſoon convinced him that this monſtrous reptile had recovered its firſt vigour—Application was made to Lee & Co. for more of their medicine, with their advice—from which reſulted the total expulſion of his formidable enemy, in ſeveral pieces, which he ſuppoſed to be SIX or EIGHT YARDS more. A few months have ſince elapſed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbours, and himſelf will gratify any who may wiſh to make further inquiries on the ſubject. Although Hamilton's worm lozenges produce ſuch powerful effects, when neceſſary, yet they are perfectly innocent and mild in their operation on the human body, even taken in large doſes, as Mr. Fuller will teſtify—their particular mildneſs is abundantly evident in innumerable cures of infants.

Communicated by Dr. John Spangler, York-town, Pennſylvania.

Letter from the reverend Mr. JOHN MOLTHER, miniſter of the Moravian church, in York-town.

York, January 4th, 1802.

Dear Sir,

Dr. Hamilton's lozenges have been recommended to me as a very adequate means for the cure of children afflicted with worms, I procured a box for the uſe of my family, to try, whether by means of this medicine, I might be enabled to gain a point, which, to accompliſh, different other means had proved abortive. My eldeſt boy had a very ſickly appearance, was very reſtleſs at night, grew leaner from time to time; in ſhort, he ſeemed to be in a precarious ſtate of health, which would yield to none of the medicines adminiſtered, until I gave him two doſes of lozenges, agreeably to the directions, which carried off a ſubſtance to al appearance a mere mucus, but upon cloſe inſpection quite replete with very ſmall living animals. Not one of that ſort of worms which uſually afflict children came from him. Since that period he grew remarkably better in health, and though lean, has got a freſh and lively complexion. Upon different occaſions I have uſed this medicine as a purging ſubſtitute, and found it to anſwer exceedingly well, without bringing on belly-ache, or any of thoſe diſagreeable ſenſations, ſo often occaſioned by purging medicines. Upon the whole, I judge this medicine to be, beſides its main object, one of the moſt ſalutary means for reſtoring loſt appetite, and promoting a proper ſtate of digeſtion, by carrying off that bilious ſubſtance, which engenders ſo much indiſpoſition both among children and adults.

I am, Sir, your moſt obedient ſervant,

JOHN MOLTHER.
